Why you need dental insurance in retirement.

Medicare doesn't pay for dental care.¹
As good as Medicare is, it was never meant to cover everything. If you want protection, you need to purchase individual insurance.

Early detection can prevent small problems from becoming expensive ones.
The best way to avoid large dental bills is preventive care. Experts recommend checkups twice a year.

Previous dental work can wear out.
Your odds of having a dental problem only go up as you age.²

Treatment is expensive — especially the services people over 50 often need.
Unexpected bills, like \$190 for a filling, or \$1,213 for a crown³ can be a real burden, especially if you're on a fixed income.

1 "Medicare & You," Centers for Medicare & Medicaid Services, 2025. 2 "Aging changes in teeth and gums," medlineplus.gov, 4/17/2022. 3 American Dental Association, Health Policy Institute, 2020 Survey of Dental Fees, Copyright 2020, American Dental Association.

When you're comparing plans ...

- ▶ Look for coverage that helps pay for major services.
- ▶ Look for coverage with no deductibles.
- ▶ Shop for coverage with no annual maximum on cash benefits.

Simply put – without dental insurance, there may be an important gap in your healthcare coverage.

The most popular rooms to remodel

Home improvement trends come and go. In a testament to that reality, the wildly popular open floor plan concepts that have dominated homeowners' desires over the last decade-plus could be falling out of favor, a shift that Rachel Stults of Realtor.com linked to the COVID-19 pandemic in a 2023 interview with Business Insider. Stults noted open floor plans will likely exhibit some measure of staying power, but linked the shift toward more traditional layouts to COVID lockdowns and the desire for more privacy among residents. The shift away from open floor plans is a testament to the fleeting nature of home renovation trends. But trends still deserve a place at the table among real estate investors

and homeowners who want to renovate their homes with an eye on projects that could be most appealing to prospective buyers. As homeowners balance their own preferences with those that might help them sell their homes down the road, they can consider this list of the most popular rooms to renovate, courtesy of the "2024 U.S. Houzz & Home Study" from Houzz Research.

1. Kitchen
2. Guest bathroom
3. Primary bathroom
4. Living room

5. Guest bedroom
6. Primary bedroom
7. Laundry room
8. Closet
9. Dining room
10. Home office

When considering renovating these or other rooms, homeowners should know that Houzz researchers found that the median spend increased for most interior room upgrades compared to the previous year. However, the median cost to upgrade living rooms and home offices remained unchanged.
